

For over 35 years Drew CDC has prepared the children of Watts-Willowbrook, Compton, and South Los Angeles to succeed and thereby strengthen our community. We believe there is no substitute for a child’s safety, education, and emotional and physical health, and we are committed to transparency and accountability as we work to provide children with these essential supports. That’s why each year we publish our *Impact Report* describing the outcomes of our programs and services. The *Impact Report* highlights how our organization’s mission and values are manifested and measured through our work, reflecting the current collective successes of Drew CDC, our clients, and our supporters.

Drew CDC’s Impact (20,000 Low-Income Children & Families Served)
